Dear Madam/Sir,

I am submitting here with my resume for your perusal and consideration for being the part of your esteemed organization. As required, I am providing my CV in this document, please see in trailing pages.

Review of my credentials will indicate that I am a qualified professional with qualitative knowledge and experience in Frontend web Applications using React. Proficient in leveraging the power of the React library to build dynamic and responsive web applications. My experience specifically in developing the website layouts using HTML5, CSS3, Bootstrap, PrimeReact and Tailwind CSS. Successfully completed multiple projects, demonstrating a fair understanding of React concepts and best practices with **Webanix Solutions**.

I am goal oriented and sincere enthusiastic applicant dedicated towards my roles and responsibility, I have the determination to give my best to any work I undertake and to succeed in the face of any and all odds. Looking for a position in a fast-paced company that appreciates hard work, dedication and evolving technical skills.

Some of my Key strengths are:

Creating reusable components	Responsive Web Designs	Convert Figma Design into Code
API Binding	Team work	

Skills:

React.js	Next.js	Angular
VS Code Editor	Bootstrap	HTML
CSS	JavaScript	GitHub
Bitbucket	Tailwind CSS	SCSS

Professionally I am looking for an opportunity that will help me utilize my skills in the above areas. Please find enclosed herewith my detailed resume for your kind perusal and consideration.

I would relish the opportunity to bring this level of success to your company. If you would like to get in touch to discuss my application and to arrange an interview, you can contact me through contact details given at the top. A tour through my resume (below) shall familiarize you with the details and I am confident, in my credentials, you would find a perfect fit for the said job. I would appreciate an opportunity for a personal interview.

Thanking You.

Yours sincerely,

Chanchal Kumari

JOB OBJECTIVE

To work in a challenging and dynamic environment that will capitalize on acquired expertise and experience and to constantly better myself for contributing to the organization in a significant way.

EXPERIENCE

Dec 2022 - Dec 2023   **WEBANIX PVT. LTD**

Working knowledge and experience in developing fully responsive website layouts, converting **Figma Designs** into code. Also, I worked on e-commerce websites and component-based-project, product listing, product detail, add to cart, wish list, etc., and experienced using third-party frameworks like **Bootstrap, Tailwind CSS**, and **Prime React**, to make efficient components in less code and time.

Projects Undertaken

1.   **NM India (https://www.nmindiabio.com/) & Minfert (https://minfert.in/)**

- Played a key role in developing NM India & Minfert, dynamic E-commerce platforms catering to diverse customer needs.
- Successfully implemented and optimized responsive design principles, ensuring a seamless and user-friendly experience across various devices such as desktops, tablets, and mobile devices.
- Implemented and optimized diverse payment methods, including a robust online system for streamlined checkouts and offline modes for user inclusivity, enhancing the website's overall payment experience.

Technology Stacks: React.js, HTML5, CSS3, Bootstrap5, Bitbucket.

2.   **Eragon (http://eragon.brandtalks.in/)**

- Designed and implemented an immersive parallax effect on this website, utilizing advanced CSS and JavaScript techniques to enhance the site's visual appeal and user engagement.
- Demonstrated expertise in responsive web design by seamlessly integrating the parallax effect, providing users with a consistent and engaging experience on desktops, tablets, and mobile devices.

Technology Stacks: Next.js, HTML5, CSS3, Bootstrap5, Prime React, Bitbucket.

3.   **Dr. Sunny (https://app.maika.ae/)**

- Led the development efforts for the 'Dr. Sunny' web application, is a comprehensive and user-centric platform designed to connect parents with babysitters.
- Contributed expertise in UI development, including creating multiple forms and data-binding functionalities.
- Introduced conditional logic in forms to personalize user experiences, adapting the interface dynamically based on user inputs and requirements.

Technology Stacks: Angular, Bootstrap, SCSS, HTML5, Bitbucket.

Internship

July 2022 - Dec 2022   **WEBSENOR**

- In Websenor, I have worked as a trainee on my self-project.
- During this time internship I have learned UI side and logic part, and a fully functional frontend side like add to cart, add to wish list, order page and recently viewed products.

Project: - Fashion

- This website developed using next.js framework.
- A single-page website with fully functional of client-side, fully responsive website for all screen size devices.
- Used DummyJSON APIs and created a commercial website like Myntra, categorized the all types of products.

Technology Stacks: Next.js, HTML5, CSS3, Tailwind CSS, Github.

Personal Skills

Hobbies: Cooking, Dress Making, Music.
Values & Ethics: Honesty, Responsibility, Disciplined.
Qualities: Teamwork, Collaborative Working, Self-Confidence, Active Learner.

Education

- **2017 – 2019**   M.sc (Masters in Computer Science), Bhupal Nobles' University, Udaipur, with **85.4%**.
- **2013 – 2016**   BCA (Bachelor in Computer Application), L.D.P.S Girls College, Rani with **77.8%**.
- **2012 – 2013**   Senior Secondary School, Sagar Senior Secondary School, Lunawa with **68.6%**.
- **2012 – 2013**   Secondary School, Sagar Senior Secondary School, Lunawa with **60.6%**.
